

# How to Save Seeds

## A Step-by-Step Guide: *Herbs*

1. Allow herbs to flower and the flower heads to start drying out.
2. Snip flower heads off and allow to dry completely in a warm, dry place
3. Shake seeds out into an envelope, then date and label it.
4. Drop seeds off at the service desk at Niagara-on-the-Lake Public Library to share with the community next year!
